

# CATTLE CHAT

## New McCullough DVDs

Filmed 2013 • First High Definition

First ever video filmed with the  
"Chuck Cam" (Head Camera)

Anyone who has been to one of our clinics or who knows us, I think would agree, that we are passionate about sharing the gifts God has blessed us with, and love to teach others how to clip, fit, and show cattle. These videos are the first of their kind. Chuck has been equipped with a high definition head camera that captures the footage as you would see it first hand. It is as if you were actually the one doing the work. We feel that we have a way of explaining the "how to's" of the business, that hasn't been duplicated. We break down the process so that it makes sense to everyone on every level. This is what we take pride in. This is the most extensive video on the market. To purchase a copy of your own go to [www.maineaimranch.com](http://www.maineaimranch.com) we take paypal, or email us and we will send you a copy.

### Clip & Daily Care Like Pro!

- Explains the everyday hair care of your calf, how to grow, and keep hair looking healthy.

- Covers complete clipping of a calf with drop down menu where you can choose what section you want to watch or watch the video from start to finish.

### Fit & Show Like A Pro!

- Covers all you need to know for show day. Complete fitting process including the many things that have changed in the past few years.

- Explains how to prepare your calf to be successful in the show ring.

Contact us if you would like to book a clinic in your area, we are starting to put together a schedule for spring 2014.

We are expecting a litter of Welsh Corgi's and Pure Bred Border Collies in the first part of October. Contact us if you are interested or visit [www.maineaimranchdogs.com](http://www.maineaimranchdogs.com). We love to hear feed back and gather information to share with others, if you would like to share your opinion with us you can email or call!
